Spacesuit reconfiguration, work on a carbon dioxide scrubber, and movement of equipment and supplies between Endeavour and the International Space Station kept crew members of the docked spacecraft busy during their just-completed workday.

The crew members for space shuttle Endeavour's STS-134 mission are Commander Mark Kelly, Pilot Gregory H. Johnson and Mission Specialists Michael Fincke, Greg Chamitoff, Andrew Feustel and European Space Agency astronaut Roberto Vittori.

During the 16-day mission, Endeavour and its crew will deliver the Alpha Magnetic Spectrometer (AMS) and spare parts including two S-band communications antennas, a high-pressure gas tank and additional spare parts for Dextre.

Landing: Wednesday June 1

Landing Time: 2:35 a.m. EDT
